Parents' Feedback Analysis (2017-2018)

The questionnaire containing ten criteria was issued to parents of all Students at the end of the academic year 2017 – 2018. Apart from the ten criteria the parents were also asked to provide suggestion for further improvement of the teaching-learning process. Around 2400 responses overall from all the departments were obtained through the respective heads. The cumulative responses on satisfaction for each criterion are plotted as a bar diagram. From the plot, it is observed that almost all the criteria are above satisfaction level. Many criteria are found to be highly satisfactory. However, in the criteria three and eight, marginal responses are observed as neutral/ not satisfactory. Hence, due importance should be given to increase the no of books in the library and improve the placement activities.
